FROME LIVESTOCK

AUCTIONEERS LTD

Foreword

Welcome to Frome dairy section and the short notice herd dispersal of 63 Friesian Holstein cows and heifers for Mr Stephen Marsden. The sale arises due to Mr Marsden relinquishing his farm tenancy at the end of March. The herd was established in 2006 and comprises of home bred, Dutch and French dams and are milked twice daily through 12/12 herringbone parlour by the vendor and are managed on a low input commercial basis. Calving is predominantly August to December; however, some dams have moved out of this pattern. The herd is cubicle hosed in winter with concentrates fed at milking together with silage and some fodder beet, dams are grazed on permanent leys during the summer months. The majority of dams are served by AI to either Aberdeen Angus or British Blue, occasionally a Black & White sire is used. Dams were PD'd on 3rd March 2022, there is currently no vaccination programme and the herd is not NMR recorded. The herd are generally Friesian Holstein and of an improving type. The cows were turned out to grass on 8th March.

A teaser/sweeper Aberdeen Angus x Friesian Bull has run with the herd from early January 2022 until the time of sale.

Important Notice: Dams were PD'd on 3rd March 2022. Dams sold being PD+ will only be warranted if over 12 weeks in-calf at the time of sale. Owing to the short notice of the sale any warranties will only remain for one week. Claims after this time may not be supported. Any claim under this guarantee must be made in writing, and supported by a veterinary surgeon's certificate, to the Auctioneers within one week of the date of the sale.

PLEASE OBSERVE THE RULES REGARDING FOOT DIPS & COVID-19
ALL STOCK TO BE MOVED ON DAY OF SALE
